Notes:

1. Annual Management Fee at Benchmark: The fee charged within an Investment Portfolio when the Investment Portfolio performance is equal to the performance of its benchmark
2. TIC: Reflects the total investment charge of the Investment Portfolio. This is the global standard used to measure the impact that the deduction of management and operating costs has on an Investment Portfolios value. It gives you an indication of the effects that these costs have on the growth of your investment portfolio.

3. ** Coronation Global Opportunities Equity [ZAR] Feeder Fund P: The base annual management fee of 0.95% (Excl. VAT) consists of 0.10% charged in the feeder fund and 0.85% charged in the master/underlying fund. Only the 0.10% charged in the feeder fund attracts VAT.
4. **Important Note on Annual Fees:**
    - For the Hollard BCI Unit Trust Funds, the B class portfolios have been capped to new business (incl. switches in) effective 23 February 2026 (excluding the Hollard BCI Money Market Fund). New classes have been made available (H & C where applicable), the fees of which are less than the B classes.
    - For Investments placed prior to 1 August 2025: As these classes provide for a lesser investment management fee, the annual administration fee applicable to your investment will not apply a flat 0.25% (excl. VAT) annual administration fee, but rather the standard fee scale disclosed on the investment quotation at the time of investment. A flat 0.25% (excl. VAT) annual administration fee will however still apply to the Hollard BCI Money Market Fund (B) and Hollard BCI Focused Global Equity Feeder Fund (C) until further notice.
